

Custom Printing - Printing Plate Setup and Terms and Conditions

Revised August 2022

Printing Plate Setup

Select one of the following options:

- ☐ Single Printing Plate (available on all product widths). 1 Plate @ 800mm x 800mm.
- ☐ Double Printing Plate (available on 2740mm & 3050mm widths only). 2 Plates @ 800mm x 800mm each.

Terms and Conditions

- Plate Cost:** A one-off charge for the printing plate/s will apply for the first order only. Please refer to your price list for the plate set-up cost or speak to your insulation supplier. Note: There is no charge for the printing itself.
- Minimum Order Quantity:** The minimum order quantity for custom printing is 1,200 lineal metres and applies per product type and width. For Example: 20 x 60m rolls or 40 x 30m rolls.
- Overs and Unders:** The quantity supplied may be up to 10% more or less than the quantity ordered, and may include a short roll/s (from the end of the production run). You will be invoiced for the number of rolls supplied. Short rolls from the end of the production run will be invoiced on a pro-rata basis.
- Artwork:** All logos and fonts must be converted to outlines. Files can be supplied as PDF or EPS to customprinting@ametalin.com. The artwork proof will be returned to you within 3 business days for final approval.
- Lead Times:** 1200mm, 1350mm, 1370mm & 1500mm product widths - for the first order please allow up to 4 weeks for delivery and allow up to 3 weeks for subsequent orders.
2740mm & 3050mm product widths – for the first order please allow up to 10 weeks for delivery and allow up to 8 weeks for subsequent orders.
- Print Colour:** The standard print colour is black.
- Product Identifier:** In addition to any printing specified by the customer, all rolls will include a small product identifier logo and a declaration of compliance to *AS/NZS 4200.1* and *AS/NZS 4859.1*. All roofing products will include an overlap line printed 150 mm from the top edge of the product for ease of installation.
