Ametalin

Performance insulation for a greener world

Sub-tropics Insulation Range

Ametalin SilverSark® | SilverWrap® | VapourTech® and Micro-perforated range for drained cavity walls.

Residential & Commercial

Reflective vapour and weather barrier insulation and vapour permeable ranges.
For use in ABCB climate zones 2 - 3.

SilverSark® HD
Heavy Duty

81 m² COVERAGE
WIDTH: 1350 mm
LENGTH: 60 m
AREA: 81 m²

Reflective roof and wall insulation
For tile or metal roofs and walls in residential and commercial buildings
• Class 2 Vapour Barrier, Air and Water Barrier
• Superior strength and puncture resistant
• Ideal for all BALs in bushfire-prone areas

SilverWrap® xRS MD
Extra R-value
Medium Duty

45 m² COVERAGE
WIDTH: 1500 mm
LENGTH: 30 m
AREA: 45 m²

Outward reflective roof and wall insulation
For use in masonry veneer wall systems in residential and commercial buildings requiring High Vapour Barriers
• Innovative reflective design, converts brick veneer steel-frame into timber-frame for NCC energy efficiency
• Class 2 Vapour Barrier, Air and Water Barrier
• Ideal for all BALs in bushfire-prone areas

SilverWrap® MD
Medium Duty

81 m² COVERAGE
WIDTH: 1350 mm
LENGTH: 60 m
AREA: 81 m²

Reflective wall and roof insulation
For tile or metal roofs and walls in residential and commercial buildings
• Achieves Group 1 Fire Performance Classification for wall/ceiling lining
• Class 2 Vapour Barrier, Air and Water Barrier
• Ideal for all BALs in bushfire-prone areas

VapourTech® Wall
Light Wall Duty

45 m² COVERAGE
WIDTH: 1500 mm
LENGTH: 30 m
AREA: 45 m²

Vapour permeable wall insulation
For use behind all types of cladding and in all wall systems in ABCB Climate Zones 2-8
• Class 4 Vapour Permeable, Air and Water Barrier
• Advanced weather barrier and vapour control membrane
• Triple-layer construction for durability
• High wind load performance to 3.45 kPa
• Ideal for all BALs in bushfire-prone areas
• High UV resistance - up to 90 days

For full product range and approved accessories please visit,

Ametalin

Performance insulation for a greener world

SilverSark® HVB

Reflective High Vapour Barrier.

Extra Heavy Duty

Reflective roof and wall insulation
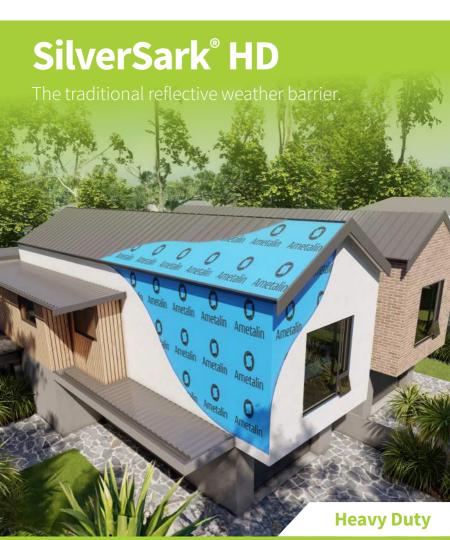

For use in residential and commercial buildings requiring High Vapour Barriers.

> Class 1 Vapour Barrier
> Air and Water Barrier
> Superior strength and puncture resistant
> Ideal for all BALs in bushfire-prone areas
> Can also be used for tile and metal roofs

For more information, please visit our website or scan the QR code:
www.ametalin.com/products/silversark-hvb/

Ametalin

Performance insulation for a greener world

SilverSark® HD

The traditional reflective weather barrier.

Heavy Duty

Reflective roof and wall insulation

For tile or metal roofs and walls in residential and commercial buildings

> The all-round weather barrier for your home
> Class 2 Vapour Barrier
> Air and Water Barrier
> Superior strength and puncture resistant
> Ideal for all BALs in bushfire-prone areas

For more information, please visit our website or scan the QR code:
www.ametalin.com/products/silversark-hd/

Ametalin

Performance insulation for a greener world

SilverSark® xR HD
Extra R-value

High performance reflective weather barrier.

Heavy Duty

Reflective roof and wall insulation
For tile or metal roofs and walls in residential and commercial buildings

> Class 2 Vapour Barrier

> Air and Water Barrier

> Superior strength and puncture resistant

> Innovative low-glare, high IR reflection ink technology

> Ideal for all BALs in bushfire-prone areas

![Ametalin logo]

Ametalin

Performance insulation for a greener world

FireSark®

The all-in-one fire-resistant reflective insulation and wall wrap for the most extreme Bushfire Attack Levels and Non-combustible constructions.

Extra Heavy Duty

Fire resistant reflective insulation

For use in all roof and wall types in Non-combustible constructions

> Ember-proof and Smoke Barrier
> Superior choice for all BALs
  in bushfire-prone areas
> Class 2 Vapour Barrier,
  Air and Water Barrier
> High wind load performance to 8.0 kPa
> Superior heat resistance

Recommended accessories:

Non-combustible Insulation Flashing Tape

ThermalCav™ Drainage Battens

Ametalin

Performance insulation for a greener world

Thermal Insulation Range

ThermalBreak®, ThermalLiner™ & ThermalFloor™ for year-round thermal comfort and energy efficiency in your home and shed.

Residential & Commercial

Introducing **Thermal Range** and accessories to complement the NCC 2022 thermal reflective insulation.

Recommended accessories:

ThermalBreak®

For use in steel-framed warehouse, sheds, residential and commercial constructions.

Duty: Extra Heavy Duty

Reinforced Insulation/Ducting Tape

ThermalLiner™

For use in residential or commercial sheds.

Duty: Extra Heavy Duty

Double-sided Insulation Fixing Tape

ThermalFloor™

For use under floors that are adhered directly to floor joists

Duty: Extra Heavy Duty

Ametalin CapNails™

For full product range and approved accessories please visit,

www.ametalin.com

![Ametalin logo]

Ametalin

Performance insulation for a greener world

ThermalLiner™

High performance thermal break insulation for residential or commercial sheds.

Extra Heavy Duty

Roof and wall shed insulation

For residential or commercial sheds

> Flexible R0.11 reflective foam insulation liner

> Low glare

> Acoustic dampener

> Ideal for all BALs in bushfire-prone areas

> Class 2 Vapour Barrier

> Air and Water Barrier

> Not recommended for DtS Non-combustible constructions

Ametalin

Performance insulation for a greener world

SilverSark® XHD

The traditional reflective weather barrier.

Extra Heavy Duty

Reflective roof and wall insulation

For tile or metal roofs and walls in residential and commercial buildings

> The all-round weather barrier for your home

> Class 2 Vapour Barrier

> Air and Water Barrier

> Superior strength and puncture resistant

> Ideal for all BALs in bushfire-prone areas

For more information, please visit our website or scan the QR code:

www.ametalin.com/products/silversark-xhd/

Ametalin

Performance insulation for a greener world

SilverWrap® MD

The traditional light weight reflective weather barrier.

Medium Duty

Reflective roof and wall insulation

For tile or metal roofs and walls in residential and commercial buildings

> The traditional lightweight weather barrier for your home

> Achieves Group 1 Fire Performance Classification for wall/ceiling lining

> Class 2 Vapour Barrier

> Air and Water Barrier

> Ideal for all BALs in bushfire-prone areas

For more information, please visit our website or scan the QR code:
www.ametalin.com/products/silverwrap/

Ametalin

Performance insulation for a greener world

SilverWrap® LD

The traditional light weight reflective weather barrier.

Light Duty

Reflective wall insulation

For wall systems in residential and commercial buildings

> Tear resistant light weight weather barrier
> Achieves Group 1 Fire Performance Classification for wall/ceiling lining
> Class 2 Vapour Barrier
> Air and Water Barrier
> Ideal for all BALs in bushfire-prone areas

For more information, please visit our website or scan the QR code:
www.ametalin.com/products/silverwrap/

![Ametalin logo]

Performance insulation for a greener world

VapourTech® RWC Roof Wall Commercial

Advanced weather barrier and vapour control membrane for condensation management in roofs and walls.

Medium Duty

Vapour permeable roof and wall Insulation

For use in commercial and residential roofs, facades and wall systems in ABCB Climate Zones 2-8.

Recommended accessories:

> Class 4 Vapour Permeable, Air and Water Barrier

> Advanced weather barrier and vapour control membrane

> Reinforced four-layer construction for high strength, tear and puncture resistance

> Ideal for all BALs in bushfire-prone areas

> High UV resistance - up to 90 days

QuickTape™

ThermalCav™ Drainage Battens

Ametalin

Performance insulation for a greener world

VapourTech® Wall

Next-generation permeable air barrier technology for walls.

Light Wall Duty

Vapour permeable wall Insulation

For use behind all types of cladding in all wall systems in ABCB Climate Zones 2-8

> Class 4 Vapour Permeable, Air and Water Barrier

> Advanced weather barrier and vapour control membrane

> Triple layer construction for durability

> High wind load performance to 3.45 kPa

> Ideal for all BALs in bushfire-prone areas

> High UV resistance - up to 90 days

Cavity Drainage Battens

ThermalBreak® Strips

For more information, please visit our website or scan the QR code:

www.ametalin.com/products/ vapourtech-wall/

VapourTech® Brane® VHP

Superior vapour permeance technology for condensation management in walls.

Light Wall Duty

Vapour Permeable wall insulation

For use behind all types of cladding in all wall systems in ABCB Climate Zones 2-8.

Recommended accessories:

- > Class 4 Vapour Permeable
- > Water Barrier and vapour control membrane
- > Triple layer construction for durability
- > Ideal for all BALs in bushfire-prone areas
- > UV resistance - up to 30 days

QuickTape™

Cavity Drainage Battens
